

```
std::map< std::string, std::shared_ptr< CmdList > >
```

CmdMap

```
graph BT; CmdMap --> Map["std::map< std::string, std::shared_ptr< CmdList > >"];
```

The diagram illustrates an inheritance relationship. A box at the bottom contains the name 'CmdMap'. A vertical arrow points upwards from this box to a larger box above it. The larger box contains the C++ type signature 'std::map< std::string, std::shared_ptr< CmdList > >'. This indicates that 'CmdMap' is a specialization or inherits from this specific map type.
