

```
std::vector< std::shared_ptr< CmdBase > >
```

```
graph BT; CmdList --> VectorType
```

A diagram showing the relationship between two C++ types. At the bottom is a box labeled 'CmdList'. An arrow points upwards from 'CmdList' to a box at the top containing the C++ type 'std::vector< std::shared_ptr< CmdBase > >'. This indicates that 'CmdList' inherits from or is a specialization of the vector type.

CmdList
